Executive summary

- ◆ Since its listing on TSE in March 2002, the company has been actively engaged in asset acquisitions and fund raising. The 2nd follow-on offering in March this year brought proceeds of approximately 42.2 bn yen, which was used for the acquisition of 9 properties and repayment of short-term debts. Out of 9 properties, 7 properties were acquired in the 3rd and 4th period and 2 additional properties post offering
- ◆ Total assets after the completion of the 2nd follow-on offering exceeded 194.0 bn yen. We originally targeted to achieve 200 bn yen in asset size within 3 years from IPO and this target is almost achieved a year earlier than expected. Our market capitalization has also grown to reach the 160 bn yen level
- ◆ Acquisitions of 6 additional properties contributed to increasing gross revenue to 6.95 bn yen and net income to 2.58 bn yen for the period, which also enabled us to pay per-unit-distribution of 16,918 yen, which was 7.6% higher than the revised estimate of 15,724 yen (revised in January 2004)
- ◆ We will continue to combine investments in income-type and growth-type assets in our portfolio to enhance stability and growth. We continuously seek to provide stable distributions to our unitholders over the mid- to long-term, while trying to implement measures to avoid any dilutive impacts to earnings through equity offerings

2 key concepts for acquisition

Strategic investments in the 2 growing sub-sectors despite the tough retail business environment

Strategic investment in “High-Street” properties

- ◆ Focus on the fashionable brand store districts including Omotesando, Aoyama and Harajuku
- ◆ Flexible lease terms to retain quality tenants
- ◆ Enhanced profitability through rents based on turn-over rents

Strategic investment in properties with leading retailers as anchor tenants

- ◆ Collaboration with leading retailers: acquisition of large-scale shopping centers with anchor tenants under long-term lease contracts
- ◆ Amongst anchor tenants in the 18 properties in the portfolio, 6 Ito Yokado and 6 Aeon Group's Jusco
- ◆ Strengthened relationships with leading retailers enabled access to further pipeline from them
- ◆ Contribution to stabilize portfolio cashflow

* The above adjusted DPUs are calculated by subtracting the property tax amounts that were capitalized, or included in the acquisition values, from the distributable income for the period in which the acquisitions were made. In accordance with the Japanese GAAP, the property tax is capitalized and not recognized as expense for the period in which the acquisition is made. Note that the above adjusted DPUs have not been audited

Growth and financing strategies

Balance sheet image

Asset growth strategy

Pursue external growth through aggressive acquisition of income type and growth type properties

Maximize internal growth opportunities through acquisitions of growth-type assets

Debt financing strategy

Maintain conservative leverage ratio

Optimum use of security deposits from tenants

Explore diversification of funding sources, including investment company bonds

Equity financing strategy

Continue to raise additional equity as the portfolio grows, while seeking to mitigate dilution effects
