## 2. Reason for the Revision

Based on management conditions throughout the fiscal period ended December 31, 2011 and a review of its distributions-per-unit forecast, MID REIT anticipates that its actual distribution per unit for the fiscal period ended December 31, 2011 will differ by more than 5% from the previous forecast announced on August 16, 2011. Such difference is primary attributable to operating expenses including property/building management fees of existing properties and commissions payments as well as interest expenses expected to be lower than initially anticipated.

### Notes:

1. The aforementioned forecasts are current as of the date of this release. Accordingly, actual distributions per unit are subject to change. On this basis, MID REIT does not guarantee payment of the forecast distribution per unit.
2. MID REIT reserves the right to revise the aforementioned forecasts in the event that a significant discrepancy between actual results and forecasts is anticipated.
3. Amounts below the specified unit are rounded down. Percentage figures are rounded to the nearest first decimal place.
